

Welcome to

XpressBid

Your Private Plan Room

XpressBid is LDI's private plan room with bid broadcasting capabilities for private projects.

- General Contractors can use the site to broadcast invitations to bid via fax or email.
- Projects require a password for access.
- Drawings are available for preview by the sub.
- Subs can order bond copies or digital files.

The Process

- LDI Store creates GC in system.
- Optionally, The GC adds a list of subs.
- GC creates Project.
- LDI Store uploads Project drawings.
- The GC selects the subs for dispatch.
- The GC sends the broadcast.
- GC monitors sub activity within system.

No Sub Contractor list? No Problem!

XpressBid provides a private password protected plan room immediately available for use with minimal setup.

- LDI Store creates GC in system
- GC creates Project.
- LDI Store uploads Project drawings.
- The GC notifies the subs about the project.
- GC monitors sub activity within system.

WELCOME

Welcome **Witworth Brothers** , below you can find quick guides how to use XpressBid.

Add Project

Start here to create and enter a project. Once you have submitted a project, an email automatically notifies your local LDI branch to prepare and upload your project drawings.

My Projects

Access an existing project and have an opportunity to edit a project, upload invite notifications, and select sub contractors before sending an announcement via email or fax.

Add Sub Contractor

This allows you to enter your sub contractor information. All you need to get started is a company name, contact name, trade and email or fax. LDI will be glad to help upload your existing contact list. Just contact your local LDI Office.

My Sub Contractors

Easily maintain and edit your sub contractor list. You can sort by trade, company name, or contact name. An Excel spread sheet containing a complete list of your sub contractors is available under **Reports**.

Reports

Here you are given options to track your project activity. Check project announcement history and which sub contractors have responded to your invites. Excel spread sheets of this information are also available for download to your system.

XpressBid Lite

You do not need a sub contractor data base to use XpressBid. When you create a project in **Add Projects**, XpressBid will automatically assign a password to that particular project (see password field). You are able to change the password if you desire. After the project is submitted, XpressBid will assign a project ID (Go to **My Projects** to view). Simply have your sub contractors go to www.xpressbid.net and enter the project ID and password to view and order drawings.

This page provides a recap of the options within the menu bar.

Build the Project

Add a new project to your profile.

The project password is required and completed by the system.

This note will be sent with each broadcast.

Selecting the Subs for this Project

Once the GC has decided to use the bid broadcasting feature, they complete the broadcast by:

- Selecting the subs for the project.
- Previewing the invitation
- Sending the invitations.
